SARNET - Enhancing Cyber Resilience

Relation to NCSRA II

# CYBER THREATS ARE EVOLVING...

# ...AS ARE RESILIENCE STRATEGIES

Automation is required to mitigate cyber threats and attacks in time

# ... THE IDEA IS NOT NEW

Introduction to the new mainframe IBM

---

## Autonomic Computing Principles

The self-configuring, self-healing, self-optimizing, and self-protecting technologies of operating environments and systems.

Seamless integration and distribution of resources by the operating system

Automatically measure and tune resources to improve performance and usage

Instant detection, diagnosis and reaction to system disruptions

Anticipate, detect, identify and protect against attacks

- › In 2001 IBM defined Autonomic Computing with *Self-Protection* and *Self-Healing*

Autonomous Response & Recovery

# ... THE IDEA IS NOT NEW

Introduction to the new mainframe

**Autonomic Computing**

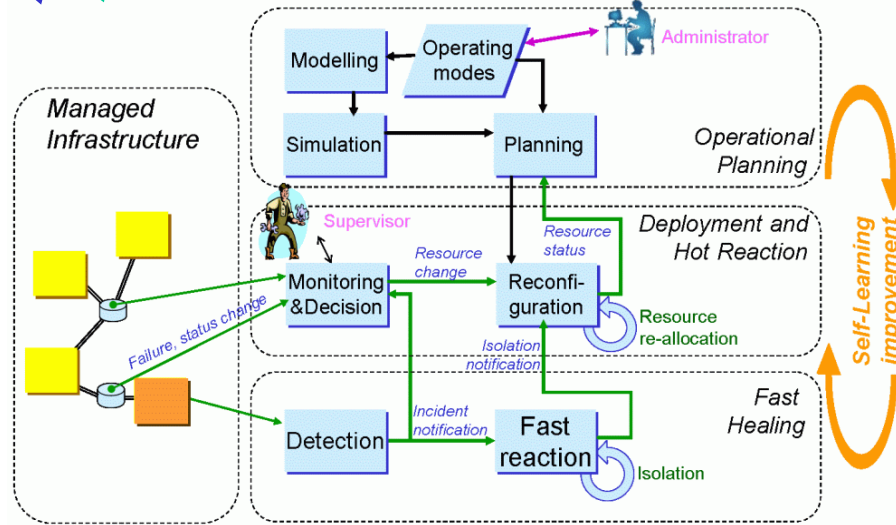

The self-configuring, self-optimizing technologies of operating systems

Seamless integration and distribution of resources by the operating system

Automatically measure and tune resources to improve performance and usage

## Dependability and Security by Enhanced Reconfigurability

outing with

FP6 project IST-2004-026600-DESEREC

Recovery

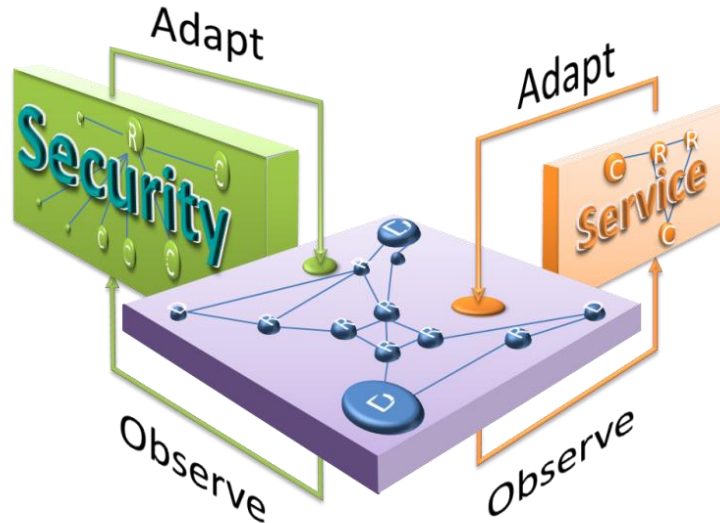

# ... BUT IT IS HAPPENING NOW

August 2016

# SARNET

Make use of SDN and NFV technology to create cyber resilient ICT infrastructures

**Cyber resilience** - “The ability of an ICT system to *anticipate, withstand, recover from, and evolve* to improve capabilities in the face of cyber threats & attacks”

- SARNET - Enhancing Cyber Resilience
- Relation to NCSRA II

# NATIONAL CYBER SECURITY RESEARCH AGENDA II

- › Published in November 2013
- › Basis for call for proposals:
  - › NWO Cyber Security
  - › SBIR Cyber Security
- › Produced by IIP-VV <http://www.iipvv.nl>  
**dcypher** <https://www.dcypher.nl/>

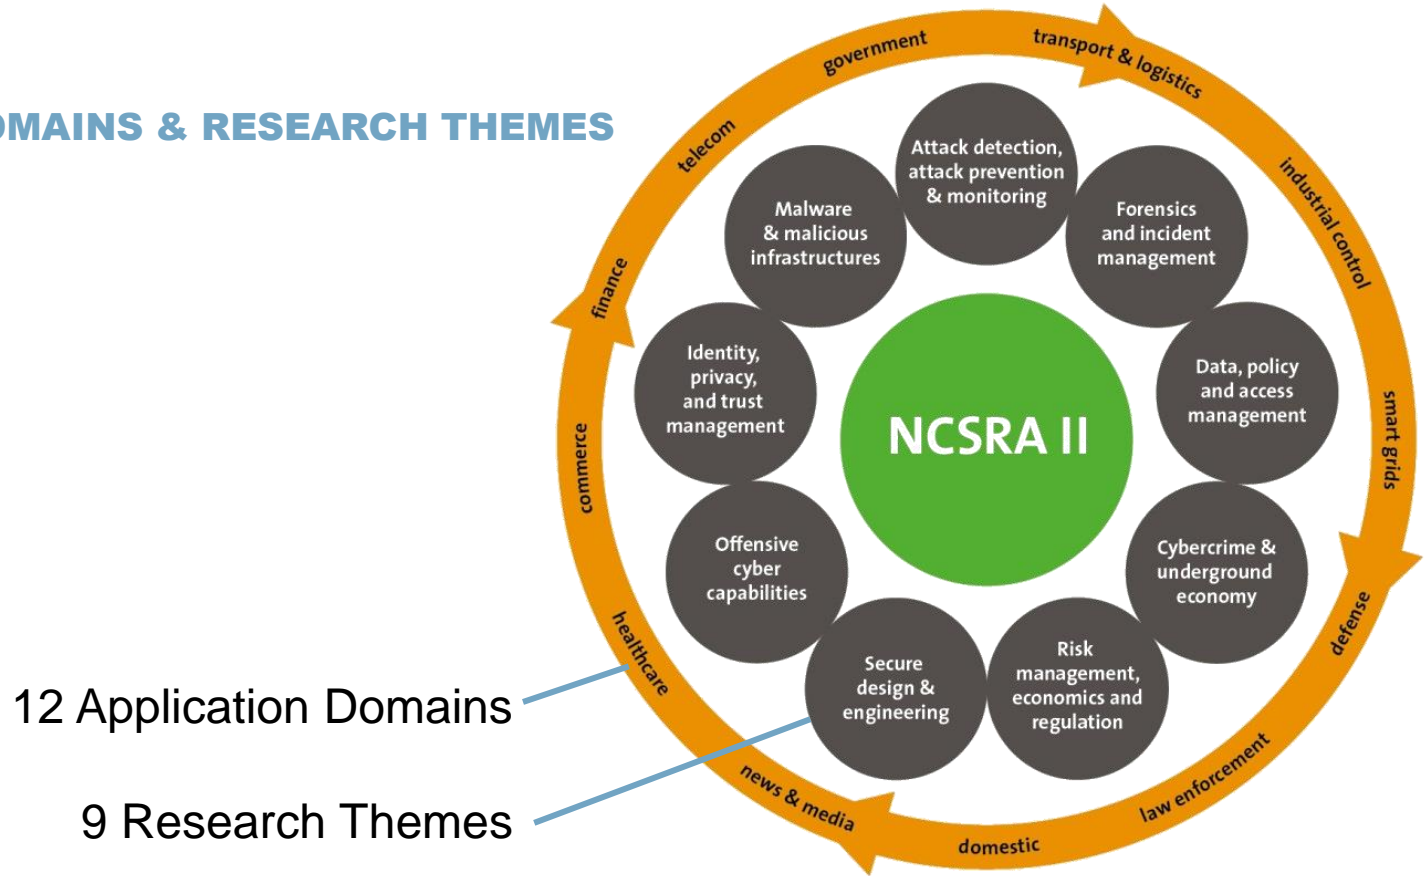

## Authors of the NCSRA II

- › prof.dr.ir. Herbert Bos (VU)
- › prof.dr. Sandro Etalle (TUE/UT)
- › ir. Frank Fransen (TNO)
- › dr.ir. Erik Poll (RUN)

# NCSRA II

## APPLICATION DOMAINS & RESEARCH THEMES

# NCSRA II

## Relation to SARNET

- › Autonomous Response
- › Self-protection & Self-healing

# THANK YOU
